

Amendments to the Claims/Listing of Claims

Please cancel claims 1-19 without prejudice, and add claims 20-30 as follows. This listing of claims will replace all prior versions, and listings, of claims in the application.

1. – 19. (Canceled)

20. (New) An activity based probe (ABP) having the structure,

wherein

each R_1 and R_2 is independently selected from the group consisting of:

R₁ and/or R₂ is $\text{---CH}_2\text{---CH}_2\text{---CH}_2\text{---}$, such that R₁ and/or R₂, along with the ---NH- adjacent thereto, forms a pyrrolidine ring;

RG is selected from the group consisting of

wherein LG is selected from the group consisting of

wherein Z is $-O-$ or $-O-C(O)-$;

L is optionally present and is an alkyl or heteroalkyl group of 1-20 backbone atoms selected from the group consisting of: $-N(R)-$, $-O-$, $-S-$ or $-C(R)(R)-$, where each R is independently H or a $-C_{1-6}$ alkyl straight or branched chain;

TAG is a detectable label selected from the group consisting of fluorescent moieties, electrochemical labels, biotin, digoxigenin, maltose, oligohistidine, 2,4-dinitrobenzene, phenylarsenate, ssDNA, dsDNA, a polypeptide, a metal chelate, a saccharide, dethiobiotin or structurally modified biotin-based reagents which bind to proteins of the avidin/streptavidin family; vicinal diols; maltose which binds to maltose binding protein, as well as any other sugar/sugar binding protein pair; a hapten to which an antibody can be generated; a tag which binds to a transition metal such that the transition metal capture reagent may be used in the form of a resin bound chelated transition metal; and glutathione; and

n is an integer from 0 to 4;

or a pharmaceutically acceptable salt or complex thereof.

21. (New; withdrawn) An activity based probe of claim 20 wherein n is 0 or 1.
22. (New; withdrawn) An activity based probe of claim 20 wherein TAG is selected from the group consisting of:

23. (New) An activity based probe having a structure selected from the group consisting of:

24. (New) An activity based probe having a structure selected from the group consisting of:

25. (New; withdrawn) An activity based probe library comprising a plurality of activity based probe(s) of claim 20.
26. (New; withdrawn) An activity based probe library comprising a plurality of activity based probe(s) of claim 21.
27. (New; withdrawn) An activity based probe library comprising a plurality of activity based probe(s) of claim 22.
28. (New; withdrawn) An activity based probe library comprising a plurality of activity based probe(s) of claim 23.
29. (New; withdrawn) An activity based probe library comprising a plurality of activity based probe(s) of claim 24.

30. (New) An activity based probe having a structure selected from the group consisting of (wherein Z at each occurrence refers to $-\text{C}(\text{O})-\text{O}-\text{CH}_2\text{-phenyl}$):
